Front-end developer obsessed with writing clear and scalable code.

Professional Experience

Rainly weather app

github.com/andrewschaeffer/rainly-app

- Built a JavaScript app to know when it's raining and so make outdoor trips easier to plan. Rainly displays "rain" or "dry" for each day of the week. Try it [here](#).
- Implemented JavaScript, MVC framework, APIs, HTML, CSS, SASS, a database of US cities, SQL, Figma, and PHP.

Attorney website

andrewmjenningslaw.com

- Built and ranked the website page 1 for transactional keywords resulting in over \$7,000 in added revenue for his business.
- Implemented WordPress, Oxygen Builder, CSS, HTML, Spyfu, Affinity Photo/Designer, custom design (no template).

Portfolio website

andrewschaeffer.com

- Built the website from my own Figma mockups [here](#). Implemented Figma instance swapping while designing mobile and desktop mockups. Click [here](#) to see me implement instance swapping.
- Solved a challenging responsive design problem using CSS variables: click [here](#) to watch the solution video on my Youtube channel.

Soft Skills

Leadership

- Leader - Lead dozens of outdoor rock climbing trips for friends in Santa Barbara, CA.
- Teacher - Taught beginners fundamental rock climbing techniques and safety.
- Empathy - Completed an EMT course at UCLA to protect friends in rock climbing emergencies.

Personal growth

- Risk-taking - Solo-traveled in Europe for over a year in a van I converted.
- Social intelligence - Made many friends along the road traveling solo.
- Resilience - Developed resilience toward the unknown (e.g. will my van break down?).

Education

Completed coding courses

- The Complete JavaScript Course by Jonas Schmedtman.
- React: The Complete Guide by Academind.
- The Modern Flexbox, Grid, Sass, and Animations Developer Course by Muslim Helalee.

University of California Los Angeles - Bachelors of Philosophy *cum laude*

- Completed three logic courses that help me think like a coder.
